ELICA'S EXCLUSIVE
PLUS FEATURES

The pairing of glass and brilliant stainless steel, make it ideal for any kitchen with island blending perfectly with other appliances. Perimeter Aspiration technology helps to achieve Top Performance by delivering more powerful and efficient fume extraction, plus it reduces noise. Available in 36" & 42" widths, Stoney Island includes a powerful 600 CFM blower, LED lighting with dimmable feature and glass capacitive touch controls. Stoney Island is meant for anyone who loves high- technological solutions, where Elica hoods and cooktops automatically communicate,recognizing quality and quantity of cooking vapors, thus accordingly adjusting performance levels.

PLUS FEATURES

WIRELESS CONNECTIVITY - Wireless technology allows the transmission of real time information about cooking (active zones, pots, temperature), to your hood. Elica hoods with STREAM technology will process data and function totally automatically.

TOUCH CONTROL - Enjoy effortless cooking, and fully control each cooking zone with the tip of a single finger.

TOP PERFORMANCE - Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFM's and a noise level between 60-65 db(A) at maximum speed (reference point varies based on the hood category).

LONG LIFE FILTER - One of a kind odour filter, capable of regenerating itself and of lasting up to 3 years. To maintain these characteristics, the filter only requires simple maintenance: wash every 2 or 3 months with hot water and mild soap (also in dishwasher at 65 degrees) and dry in the oven for ten minutes at 100 degrees

PERIMETER ASPIRATION - This technology draws air through a narrowed channel around a face plate, which increases suction, without increasing blower speed or energy consumption.

AMBIENT LIGHT - Transforms a kitchen appliance into a true lighting element.
