PFC Living Room Furniture 3-Door Metal Sideboard P301750

Pulaski Furniture Website

www.pulaskifurniture.com

SKU: P301750

Availability: In Stock

Type: Cabinets, Sideboard Cabinets

Category: Living Room

Collection: Pulaski Accents

Style: Modern/Contemporary

Finish: Grays

Brand: PFC

Product Description: The 3-Door Metal Sideboard offers the perfect blend of contemporary design and practical functionality. It features a gray-colored metal cabinet and doors with a stacked pattern design on the door fronts. A fixed shelf behind the doors provides additional storage, allowing for better organization of items such as dishes, glassware, or other household essentials. A contrasting light Mango Wood top inset creates a pleasing contrast, softening the overall look and making the sideboard more versatile for casual and modern settings.

Collection Features: Elevate your space with our exquisite collection of accents. Each piece is carefully curated to ensure it adds a unique charm and character to your living area. Our pieces complement various designs and blend seamlessly with any decor, enhancing the overall ambiance and offering the perfect finishing touch to any room.

Status: Active

Finish: The sleek metal case and the warm, natural wood inset creates a captivating contrast

Features: Blends natural and industrial elements for a dynamic and versatile aesthetic

A stacked pattern design on the door fronts adds a unique visual appeal

Three doors open to reveal ample storage with a single shelf behind each door

A push-open mechanism is discreetly integrated for effortless door opening

Material: Mango Wood

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
