Thank You For Choosing Sleeptone

Congratulations! Your path to achieving a peaceful night's sleep starts right now.

The moment has come to embark on the journey towards the rejuvenating sleep you've longed for. Bid farewell to those sleepless nights and greet a revitalized version of yourself.

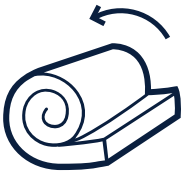

We appreciate your confidence in Sleeptone for this incredibly significant facet of your life!

Wishing you sweet dreams.

Setting Up Your Sleeptone Mattress Is Simple

Unpacking
Transport the sleeptone box to the room where you intend to assemble your mattress. Open the mattress while keeping the box on its side.

Placement
Position your rolled-up mattress on a flat or slatted surface. Begin unwrapping the outer plastic covering using your hands.

Unwrapping

Carefully use the sleeptone plastic cutter to cut the inner plastic layer. Your mattress will promptly begin to inflate and expand.

Assembly

Your Sleeptone mattress will expand significantly within 2-5 hours and fully within 24-48 hours. Adjust the mattress cover if it shifted during transport; wrinkles will vanish.

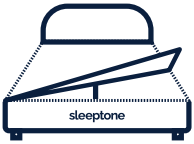

Bedmaking

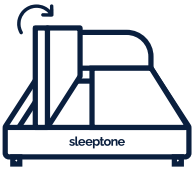

Your mattress is now prepared for a night of restful sleep. Sweet dreams await!

Adjusting Firmness Level

1. Unzipping The Top Cover
Locate the mattress's zippered top cover and unzip it to reveal the layers inside.

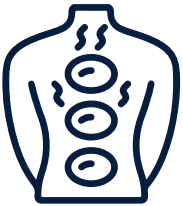

2. Adjusting Firmness
Lift the top layer of the mattress, flip it to your desired firmness level, and place it back in.

3. Rezipping
Securely zip the top cover back in place, and your mattress is ready for a comfortable night's sleep.

Frequently Asked Questions

Selecting the Right Bed Frame

Wondering about the most suitable bed frame? You have the freedom to place your mattress on any flat surface or bed frame. While a box spring is optional, it can be used if preferred. If you opt for a slatted base, make sure the slats are spaced no more than 3 inches apart.

Odor Concerns

Have you noticed any odors? It's possible to detect a "new foam scent" immediately after unwrapping the mattress. However, rest assured that this scent typically dissipates within a few hours and completely disappears within a matter of days. Importantly, our materials are CertiPUR-US®-Certified, guaranteeing that the scent is non-toxic.

Considering an Upgrade

Interested in enhancing your sleep experience? Take a look at our Sleeptone bed frame collection, available at sleeptone.com.

Cleaning Your Sleeptone Cover

Accidents can occur, but there's no need to worry. If you need to clean your mattress, simply spot-clean any stains using cold water and a mild detergent.

Enhanced Mattress Protection

Seeking additional mattress protection? Explore the Sleeptone Mattress Protector, available at sleeptone.com/mattress-protector.

Flipping Your Mattress

Wondering if you should flip your mattress? Unlike some mattresses, Sleeptone isn't designed to be flipped. However, if you share your bed with someone whose weight significantly differs from yours, we recommend rotating your mattress 180˚ every 3-6 months to promote even wear.

Breaking It In

When transitioning to a different mattress, your body undergoes an adjustment period as it acquaints itself with a fresh sleep surface. Think of it as breaking in a new pair of shoes or adapting to a new set of glasses – it simply requires a little time to get comfortable. For most individuals, this adaptation period typically lasts less than a week, although some may need a bit more time.

We've dedicated our efforts to meticulously craft and design the Sleeptone Mattress with your body's comfort and well-being in mind, and we sincerely hope you find it delightful!

Once you've fully settled into the Sleeptone Mattress, you'll enjoy quicker sleep onset, uninterrupted slumber, and wake up feeling rejuvenated.
