

## Nail Head Trim

Every detail counts at Hancock & Moore. That's why we select from a wide variety of nailhead sizes, finishes and textures to create just the right accent for each chair--from the discreet burnished glow of Pewter Nail to the decorative whimsy of Golf Nail. Decorative heads are driven by hand along the welt lines of many traditional styles. Note: Nails shown below are not actual size.

Each fabric has its own distinctive design and texture, with patterns of plaids, tapestries and prints. Fabrics add a dimension of their own from a playful design to a velvety texture. Fabric has become a popular choice for many of our furniture styles. The right fabric or combination of fabrics can tie a room together perfectly with a decorative element or match one's personality with its unique style.
