GTK-PG10

PG10 Portable wireless speaker

Bring the party with you, both inside and out. Portable, wireless, and rechargeable, the all-in-one PG10 speaker system touts Bluetooth®, an FM tuner, and outdoor party mode. High powered tweeters create a wider sound stage for outdoor parties, and the splash-proof top panel's built-in cup holders keep your hands free for dancing.

Bullets

- Take the party indoors or outdoors
- Outdoor party mode spreads sound further
- Rechargeable battery provides up to 13hr playback¹
- Splash-proof top panel with integrated cup holders
- Built-in microphone input
- Bluetooth® connectivity for wireless music streaming²
- FM tuner lets you enjoy your favorite radio shows and sports programming
- USB port lets you plug in, play and charge
- Easy to carry design with built-in handles
- Multi device connection
- Tripod compatible
- Customize your settings with the Sony | Music Center app³

Features

Take the party outdoors or indoors

Wireless and portable with a long battery life¹, the PG10 is ideal for enjoying music outside, whether it's a party, a picnic or a camping trip. Want to continue the party indoors? Simply fold up the top panel and take the PG10 with you for room-filling sound that doesn't take up much floor space.

Loud and clear – optimized for the outdoors

The PG10 all-in-one speaker system houses a DSP (Digital Signal Processor), which automatically adapts audio settings to optimize performance for both indoor and outdoor settings. This results in crystal-clear music, no matter where the party is. With the top panels closed and the top tweeters facing forward and downwards, the PG10 projects sound forwards for volume and clarity. With the top panels open, the built-in tweeters face upwards and outwards, spreading the sound wider for outdoor parties.

The power to party anywhere, with a rechargeable battery

Partying somewhere without electricity? No problem - the built-in rechargeable battery powers your party for up to 13 hours¹.

Splash-proof top panel with integrated cup holders

When the top panel is open, it's a perfect place to put drinks and foods – and there's no need to worry about spilling them because the top panel is splash-proof and easy to clean.

Unleash your inner pop star

If you want to sing along to your favorite tunes or be the party MC, just plug in a microphone. The PG10's microphone input puts your vocals directly into the mix.

Bluetooth® connectivity plus 3.5mm audio input for easy use

Bluetooth® technology² lets you pair your smartphone with the PG10 using a short-range wireless connection. It's quick and easy to do and the connection won't be interrupted by objects in the signal path. Once paired, you're free to stream all your favorite tracks and playlists from your smartphone to your sound system. Audio input lets you connect portable MP3 players that don't have Bluetooth® connectivity to the PG10. ²

FM Tuner

The built-in FM tuner and retractable antenna lets you enjoy your favorite radio shows/channels, sports broadcasts, and chart-topping hits with the same heart-pumping power as your streaming content.

USB port lets you plug in, play and charge

With a USB port, you'll be able to plug in a USB memory stick, smartphone, tablet or laptop and play all your digital files. Compatible with MP3, WMA, AAC and WAV formats, you'll be able to keep the party moving with your favorite playlists – and charge your device at the same time.

Easy to carry design with built-in handles

Pick it up and party anywhere. Whether you're hanging out with friends at home or taking the party outside, the PG10's compact cube design features built-in handles for portability and convenience.

Multi device connection

You and your friends can pair up to three smartphones or tablets simultaneously using Bluetooth technology². You'll all be able to play tracks from your music libraries, giving you even more choice.

Tripod compatible

Using a built-in mounting hole, the PG10 can be set on a tripod speaker stand for an elevated position, so sound can be projected even more effectively to even more people – whether they're sitting or standing.

Customize your settings with the Sony | Music Center app

Take control of your settings with the Sony | Music Center app³. Simply download it to your smartphone and enjoy wireless control of your music. You can adjust audio settings, select your favorite playlists from your phone or a USB, and cue the next song without being tied to the sound system.

Fun, easy control via the Fiestable app

Take charge of playback from your smartphone with the Fiestable app⁴, which you can access exclusively once you've downloaded the Sony Music | Center app.³

Voice Control via Fiestable

Change track or adjust the volume, just by speaking into your smartphone. Simply select Voice Control via the Fiestable app⁴ and speak your command - the sound system will obey.
