**Mounting height refers to distance between top of a 36" tall cooking surface and bottom of hood.

DID YOU KNOW?

The Perimeter Aspiration System moves airflow away from the central area of the hood and evenly distributes it through narrow openings around the perimeter of the hood. This ventilation method increases air velocity and improves the capture of cooking contaminants.

 TruHue™ A bright idea: customize your hood's light to harmonize with the rest of your kitchen's lighting at the touch of a button—from 2700K, 3000K, 3500K, 4000K to 5000K.
