Dual Dash Cam

Key Features & Highlights

4K ULTRA HD Picture Quality

4K ULTRA HD — 8.3 Million Pixels

2160 pixels · 3840 pixels

- 3840 x 2160 ULTRA HD video recording provides great detail.

WDR (Wide Dynamic Range)

- Built-in WDR easily records clear images in dark or well lit environments without underexposing or overexposing the image.

Without WDR | **With WDR**

Magnetic Mount

Power plug stays attached to mount

Cam easily detaches from mount

- Quickly place and remove the dash cam.
- No cable to connect or disconnect from the dash cam.

G-Shock Sensor

3 axis sensors detect a collision

- Built-in sensor detects an outside force, forcing the device to save what has just been recorded.

2 Front Cam Mounts Included

3M Tape Style | **Suction Cup Style**

*Rear Cam includes 3M Tape Style only.
Super Capacitor

- Allows video file to save and close properly if power is lost.

Integrated GPS

- Records location and speed information.

Parked Incident Recording (Parking Mode)

- Automatically records 30 seconds of video upon physical impact of vehicle.
- Adjustable sensitivity level.
- Requires optional hardwire kit: CA-DR1030.

CA-DR1030
