NOTE: If installing an optional rack rail, ACRR-B1, please see the instructions included with that product for proper installation.

D Push a shelf [07] onto the tabs (T) at the back of the rails. Lower the shelf [07] onto the rails. Push the shelf locks (SL) inward to secure the shelf. The shelf locks (SL) will click when locked into position.

POWER STRIP

CAUTION: Risk of Electric Shock.

- * Do not plug into another relocatable power tap.
- * To Reduce The Risk Of Electric Shock - Only Use Indoors.
- * Do not use in areas exposed to moisture.
- * Electrical rating: 15A/60Hz/125V/1875W

On/Off Switch with Built-In 15 amp Circuit Breaker.

To prevent an overload, make sure that the total wattage of items plugged into the power strip does not exceed 1875 watts.

If an overload occurs, turn off the power strip and unplug items from the strip until the total is below the maximum. Press the reset button on the end of the power strip and turn the strip on to restore current.
