

Eaton Coffee Table

Dark Gunmetal • 228345-002

Overview

A slight cradle base of gunmetal-finished iron supports a clean-lined coffee table made from thick oak veneer, with dual drawers for extra storage space. For a rich, one-of-a-kind look, black resin fills woods' natural cracks and graining. A subtle variance of resin placement and amount is to be expected, and reflective of materials' character-rich roots.
