PFC Living Room Furniture Large Stone Top Nesting Table P301726A

Pulaski Furniture Website

www.pulaskifurniture.com

SKU: P301726A

Availability: In Stock

Type: Tables, End Tables, Nested Tables

Category: Living Room

Collection: Pulaski Accents

Style: Modern/Contemporary

Finish: Whites/Creams/Beiges

Brand: PFC

Product Description: Graceful, airy, and organic, our Large Nesting Table is ideal for saving space and adding versatility to your living area. It showcases slender metal legs and an X-design stretcher base, providing stability and support for the lovely stone top. Pair it with the coordinating P301726B Small Nesting Table for an additional surface area, which can be tucked underneath the larger one when unused. Use this table in the living room, bedroom, or office, and include the small nesting table for the complete set.

Collection Features: Elevate your space with our exquisite collection of accents. Each piece is carefully curated to ensure it adds a unique charm and character to your living area. Our pieces complement various designs and blend seamlessly with any decor, enhancing the overall ambiance and offering the perfect finishing touch to any room.

Status: Active

Finish: The neutral colored stone and metallic frame create a balanced and cohesive look

Features: Combines contemporary elegance with practical versatility. The stone-top exudes a refined aesthetic, while the space-saving design makes this table ideal for small spaces or those who value flexible, multifunctional pieces. The metal base boasts a sleek, modern X-design, complementing the luxurious stone top.

Material: Stone

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
