Mango wood has high variations
because of spalting that is commonly
present. Colors and cuttings can
range from golden brown to yellow to
pink to black. Each piece is unique
which is part of the charm and beauty
of this hardwood. Additionally, Marble
is a natural stone product and is
known for its variation in color,
carbon deposits and veining patterns.
Variations in shade and markings are
normal and can be expected with the
natural materials used in the
construction of this product. Due to
the porous nature of marble, it is
vulnerable to staining agents and
high heat.

Avoid placing hot or wet items on
surface. Coasters recommended

Weight Capacity: 66 lbs

Ideal for use as a nightstand or side
table in a bedroom, guestroom or
living space

To clean, wipe clean with a clean dry
cloth and dust regularly. If spills
occur, wipe spills with a damp cloth
and dry immediately. No abrasives or
household cleaners which can
damage the wood. Drink coasters are
recommended
