Features: Casters

Finish: Medium Wood

Brand: Hooker Furniture

Product Description: Crafted of Elm and Poplar Veneers with an antique bronze metal base, the Solstice Entertainment Center has a sophisticated primitive style. There's one adjustable, ventilated wood shelf behind the center pair of doors and one adjustable ventilated wood shelf behind each of the outside doors and a ventilated back panel in all sections. Contrasting a medium wood finish with a dark gray top, the Solstice accommodates up to an 80-inch TV.

Collection Features: Our TV consoles accommodate media components without disrupting functionality in an elegant mix of materials.

Status: Active

Max TV Size: 80" Flat Screen

Finish: 5657-MWD Medium wood finish with contrasting dark gray top and antique bronze metal base

One adjustable, ventilated wood shelf behind center pair of doors

One adjustable, ventilated wood shelf behind each of the outside doors

Ventilated back panel in all sections

Levelers

Metal base

Material: Elm and Poplar Veneers with Metal

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
