MOE'S

Casey Sideboard Dark Brown

Soft corners, strong point of view. Casey is the sideboard that makes storage feel intentional, blending presence with an architectural outline. Rounded edges ease the profile so it plays nicely in dining rooms, entryways, or spaces. A solid oak edge adds real-wood character, while oak veneer over MDF keeps the surface smooth and consistent in Dark Brown. Inside, generous storage keeps clutter out of sight—so your room looks ready for guests, for you, always today.

- Rounded, Architectural Lines: Softened edges and a clean frame give this sideboard a calm, structured look that works across rooms.
- Solid Oak Edge: Real oak edging brings warmth and subtle grain definition, paired with oak veneer over MDF for a uniform surface.
- Well-Proportioned Storage Piece: Built with balanced panel thickness and steady support so doors and drawers align cleanly and feel reliable.
- Ample Hidden Capacity: Spacious interior storage helps corral serveware, linens, or media essentials, keeping countertops clear and your setup organized.
