

## CULLEN OUTDOOR CHANDELIER

The Cullen Outdoor Chandelier is a classic lantern shaped fixture with a twist. The implied globe made from thinner metal rods than the outside frame orbit within the square outer shape and rise above it slightly to bring the black outdoor chandelier added interest. The metal is stainless steel in a charcoal black finish and the cylindrical globes covering the lights are tempered glass.

**Item Number** SCH-170425

**Dimensions** W29 D29 H33

**Material** Stainless Steel
