**Product Description:** Infuse your living space with classic sophistication using the Archives Round Cocktail Table. Crafted with figured quartered walnut veneers and finished in a rich Classic Walnut tone, this round table showcases the beauty of its natural wood grain. The four-post design and open lower shelf provide both durability and practicality, making this cocktail table an ideal centerpiece for traditional or formal living room settings.

**Collection Features:** Archives taps in to a design trend that mixes modern, trendy styles with historic elements, known as "hipstoric". Complementing a variety of design styles with timeless forms and elements, the trend creates a sense of undeniable luxury. Layering rich and authentic materials, such as figured walnut veneers, top grain leather, woven raffia, and polished marble, Archives' assortment speaks to consumers who yearn for structured elegance with a dash of mystery

**Status:** New

**Finish:** The high clarity Classic Walnut finish over figured quartered walnut veneers adds richness and depth.

**Features:** Round shape  
Four-post design  
Open storage space on base

**Material:** Figured Quartered Walnut Veneer

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
