

HEATHFIELD

SECTIONAL | SM5403-SECT

DETAILS:

At first glance, what captures your attention here are the beautiful blue and brown prints on the pillow. They evoke feelings of comfort and calmness with every interlocking abstract line. But in reality, what allows this unique pattern to pop is the backdrop on which it rests on--the neutral, ivory chenille fabric seemingly relegated to secondary status. However, without this unassuming base color, the character of this set will be all but lost.
