

PRODUCT SPEC SHEET

Coleman / CO-400BBQ  
Coleman Cookout 4 Burner BBQ Grill w/Side Burner

Delicious grilled food is made quick and easy with the Coleman Cookout 4-burner gas BBQ grill. Propane gas grills are great on busy weeknights for getting meals on the table fast, and you have precise temperature control for each burner section of the grill with the turn of a dial. Instastart push-button matchless lighting system gets you started quickly. One 9,000 BTU side stove burner is great for preparing a side dish, sauce, soup, and more. Four stainless steel grill burners deliver up to 36,000 BTUs of grilling power - perfect for burgers, hotdogs, sausages, chicken, fish, ribs, and steaks. Stainless-steel heat plates over the burners offer optimal heat retention and even heat distribution which results in more even cooking and better searing of food. Durable, porcelain cast iron cooking grates provide 480 square inches of cooking space, while the warming rack provides 157 square inches. Monitor it all with the built-in temperature gauge on the double-wall stainless steel lid. The convenient 2-wheel cart has open propane tank storage, integrated tool hooks, and a towel holder, plus 1 side shelf and 2 bottom shelves for holding ingredients. Outdoor grilling is simple, reliable, and tasty with the Cookout 4-Burner Barbecue. Coleman / CO-400BBQ
