

Experience unsurpassed comfort and enhanced pressure relief with our handmade **Casa Bella Firm**.

Made locally for you; using the best materials.

The **Casa Bella Firm** features multiple layers of comfort and support foams offering pressure-relief as well as proper spinal alignment.

Spinal Support layer

Provides additional support and alignment for the spine, helping maintain proper spinal alignment during sleep. It aids in preventing sagging and contributes to the overall durability of the mattress.

A patented support system with advanced cooling **Lumbar Zone® technology**. The gel-infused memory foam lumbar crown works with the Lumbar Zone® Quilting above to give you extra support and durability, virtually eliminating body impressions from forming over time.

SOFT HAND KNIT COVER

- Breathable cover that sleeps temperature neutral.

NATURAL FR

- No fiberglass or toxic chemical flame retardants, instead we use a natural, plant-based thistle pulp flame barrier

ECOLOFT

- Our proprietary blend of natural cooling fibers provide comfort and temperature regulation while providing support and pressure relief.

EXTRA FIRM QUILTING FOAM

- Extra Firm polyfoam comfort layers between the sleep surface and coil unit below add the perfect balance of comfort and support.

LUMBAR ZONE® CROWN

- **Cooling swirl gel infused** memory foam **crown** adds support and durability to the section of the mattress that **supports the bulk of your body weight**, providing more **support for the heaviest** parts of our body, relieving pressure on your lower back.

HIGH DENSITY CONVOLUTED FOAM

- A wavy surface. This design helps distribute body weight evenly, reducing pressure points and promoting proper spinal alignment. The convoluted foam layer enhances airflow within the mattress, contributing to a cooler sleep.

SPINAL SUPPORT INSULATOR

- Provides additional support and alignment for the spine, helping maintain proper spinal alignment during sleep. It aids in preventing sagging and contributes to the overall durability of the mattress.

FOAM-ENCASED WRAPPED POCKETED COILS with LIFE EDGE®

Q-Count | Q 832

- Individually encased coils **flex** and **respond** to the contours of the body, offer ample support, and **minimize motion transfer** quickly.
- High-density foam rails create stable, firmer edge support that gives you more sleep surface and makes getting in and out of bed easier
- LifEdge® Patented Steel Support unit made up of individually wrapped recycled steel coils responds to your body's movement and contours to your curves

DURABLE BASE SUPPORT

FOR USE WITH ADJUSTABLE BASE BEDS, BOX SPRINGS AND FOUNDATIONS.
