

CAENIB-2X1

Automation Enclosure, 2 modules high x 1 module wide - International Version

The CAENIB Series automation enclosures are designed to house Crestron's CLXI-Series lighting control modules with optional load-side circuit breakers, and a **PAC2** or **PAC2M** control system.

CAENIB

enclosures are available in an assortment of sizes, suitable for surface

or flush wall mount installation. Each model has been engineered to

provide a clean and manageable installation with abundant provisions for

wire termination and electrical knockouts.

CAENIB automation enclosures are designed to use space efficiently

supporting over a hundred possible circuits in the largest model.

Both

centralized and distributed configurations are possible. A single PAC2

control system installed in a central enclosure can support numerous

satellite extension enclosures distributed throughout a residence or

commercial facility. Interconnection of the complete network of enclosures

requires just one circulating Cresnet cable. Dozens of keypads, touchpanels, wall box dimmers, shade controllers, and other peripherals

can also be terminated within an enclosure, with separate compartments

provided for high and low voltage wiring.

Crestron lighting and automation systems are completely convection cooled

for silent and reliable operation. Each enclosure includes a vented front

cover featuring individual access doors for each group of circuit breakers. All models are constructed of 16-gauge galvanized steel and are

pre-drilled for mounting of the PAC2, PAC2M, CLXI modules, CLTI terminal

SPECIFICATIONS

Environmental

Temperature: 32° to 104°F (0° to 40°C)

Humidity: 10% to 90% RH (non-condensing)

Enclosure

16 Gauge galvanized steel backbox with perforated grey steel cover,

surface or flush wall mount

Circuit breaker access doors are provided with the CLTIBN circuit

breaker terminal blocks (sold separately); a quantity of blank plates is

included with each CAENIB enclosure to cover any unused circuit breaker

positions as follows: CAENIB-7X2 (6), CAENIB-7X1 (3),

CAENIB-4X2 (4),

CAENIB-4X1 (2), CAENIB-2X1 (1)

Backbox Dimensions

CAENIB-7X2: **Height** : 62.75 in (159.39 cm);

Width : 27.25 in (69.22 cm);

Depth

CAENIB-7X1: **Height** : 62.75 in (159.39 cm);

Width : 16.10 in (40.90 cm);
