

# FZU36L

Product Family	Freezers
Installation	Built-in
Category	Single door
Reference width	Higher than 80
Reference height	Higher than 200
Cooling type	No Frost
Hinge type	Door on door
Hinge position	Left

## Aesthetics

Aesthetic	Universale	Side material	Metal
Material	Steel	Display	TFT
Door steel type	Normal		

## Freezer compartment features

Internal light in freezer	Yes
Type of internal light (freezer)	Incandescent light
Number of drawers	4

## Other Freezer features

Warehouse availability first date	Automatico
-----------------------------------	------------

## Other technical features

Functions display	Holiday, Fast Freezing	Type of temperature control	Electronic
Fast freezing button	Yes	No. of compressors	1
Power on lamp	Yes	Refrigerant gas type	R600a
Temperature alarm lamp	Yes	Type of compressor	Inverter
Door open alarm	Yes	Refrigerant Quantity (gr)	85 oz
Temperature alarm	Yes	Foam agent	Cyclopentane

## Performance / Energy Label - Reg. 2019

Total net volume	150.6 gal	Climate class	SN, N, ST, T
Sum of the volumes of the frozen compartment(s)	150.6 gal		

## Electrical Connection

Plug	(B) NEMA 5-15P	Frequency (Hz)	60 Hz
Current	3,5 A	Power supply cable length	78 3/4 "
Voltage	115 V		

---

## Symbols glossary

---

**Fast freezing:** The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

**Power saving mode:** The power saving mode allows you to disable the refrigerator and keep the freezer working.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

**No Frost:** The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.

---

## Benefit (TT)

---

### **No-Forst Cooling System**

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

### **Door-on-door Hinge**

Fixed hinges, otherwise known as door-on-door hinges, directly connects the cabinet door to the appliance door

The cabinet door will not be attached to the rest of the cabinetry. Instead, it will be completely attached to the appliance door. Therefore, the appliance door will be bearing the weight of the cabinet door. This type of fitting is often sturdier than a sliding hinge fitting, and can give you a sleeker finish.

### **TFT Display**

The TFT display offers an intuitive and elegant interface, making operation simple and immediate with a premium touch

### **Internal illumination**

Interior lighting for perfect visibility of the drawers in the freezer compartment

### **R600a Refrigerant Gas**

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

### **Automatic Ice Maker**

Automatic ice maker for ice always available when needed
