**Product Description:** An abstract art pattern created with bone inlay in a black, white and gray color scheme makes the Whitmore Credenza a one-of-a-kind artistic accent. Crafted in Mango Wood, the four-door credenza has a removable shelf behind each pair of doors, a ventilated back panel and wire management.

**Collection Features:** Come closer to Melange, and you will discover something unexpected. An eclectic blending of colors, textures, and materials in a vibrant collection of one-of-a-kind artistic pieces, Melange is meant to inspire you and fuel an experience of self discovery, inspiring a renaissance in your home. Each piece of Melange has its own story. The designs are versatile and timeless, easily transcending from one life stage to the next, from home to home and generation to generation.

One removable shelf behind each pair of doors  
Ventilated back panel  
Wire management holes in back panel  
Levelers

Material: Mango Wood with Bone Inlay and Iron

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
