Description

The Sheldon ottoman is low profile and designed to be a modern version of a traditional footstool, it's small in scale but meant to add comfort for someone who just wants a spot to rest their legs and might not want the height of a standard ottoman. It's difficult to find a chic, sleek low ottoman that has a contemporary look and the Sheldon footstool answers that challenge with it's simple, angular modern legs that come in Brushed brass or polished chrome. The upholstery is also very simple with straight lines so the Sheldon ottoman is a great candidate to showcase a bold geometric pattern which can add a dynamic look to a room design without overwhelming it. A pair of Sheldon ottomans can be the perfect cherry on top of any room design.
