

COOL RESPONSE COLLECTION

2023 NEW ALL FOAM COLLECTION

VENTICOOL™ FABRIC TECHNOLOGY

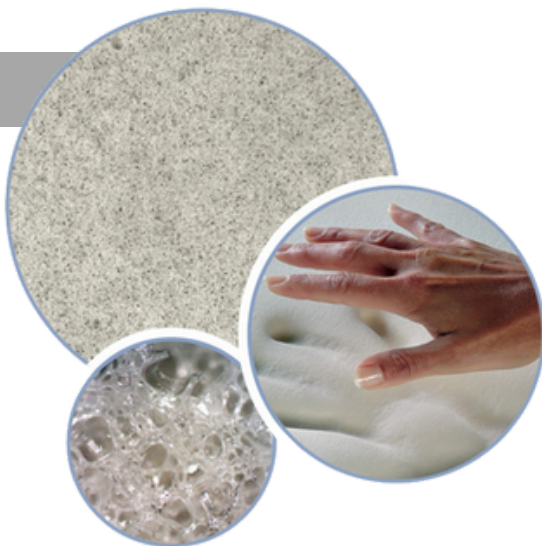

- Cool-to-the-touch cover with a sophisticated mesh ventilation system.
- Provides **25% more airflow** for a cooler night's sleep*.
- Designed to help you fall asleep faster and stay asleep longer with a cooling surface that prevents heat build-up throughout the night.

*ventilated areas vs non ventilated areas

ALUMILAST™ MEMORY FOAM

- Proprietary technology infuses aluminum into the cell structure of the foam.
- AlumiLast™ is **2.6x cooler** and stays cooler **50% longer** than conventional foams.
- Provides pressure-point relief and delivers improved air flow for a cooler, more comfortable sleep surface.

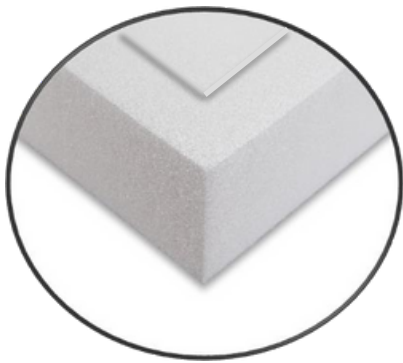

ADDITIONAL FEATURES

TRURESPONSE™ FOAM

- Supportive Air Technology –billions of microscopic air capsules enhance support and reduce pressure on sensitive areas of the body.
- Not temperature sensitive –stays plush and comfortable throughout the night.
- Helps reduce motion transfer for a more restful sleep.

HIGH DENSITY FOAM CORE

- Helps strengthen the entire mattress and extend its lifespan.
- Provides weight distribution to help keep spine in a neutral position.
- “Noise-free” to help reduce partner disturbance and tossing and turning throughout the night.
