

LTEE5ASP175TW01, LTEE5ASP155TW01, LTGE5ASP115TW01

Stack Washer/Dryers

Our stack washer/dryers are designed as vertical combinations that provide all of the power of Speed Queen® washers and dryers while occupying only half of the floor space of a conventional washer and dryer setup. Plus, these stacked units allow you to utilize the same connections and hook-ups required be a standard washer and dryer, so you won't have to make changes to your installation.

- ENERGY STAR® Qualified to use less energy, save money and help protect the environment.
- Water use is trimmed to 13.9 gallons per cycle to reduce operating costs.

Washer Control

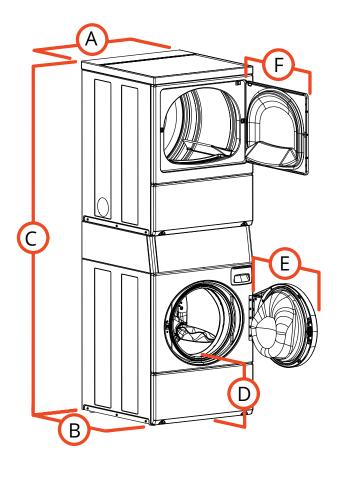

Dryer Control

Electronic Homestyle Control

Speed Queen® washers and dryers with Electronic Homestyle controls are designed for durability and are easy to operate with intuitive selection buttons and cycle status indicator lights. This control option features a time-remaining display, six preset cycle buttons, cycle adjustability for temperature and load size, soils levels along with additional cycle enhancer options for a pre-wash or second rinse cycle.

Stack Washer/Dryer
