**Finish:** Whites/Creams/Beiges

**Brand:** Hooker Furniture

**Collection Features:** Hooker Furniture, a division of Hooker Furnishings, partners with Susan G. Komen® for a licensed accents collection. The partnership is a furniture industry first, initiated by Hooker Furnishings in an effort to assist in spreading awareness of the pervasive, non-discriminatory, and devastating effects of breast cancer worldwide. According to Komen, every 46 seconds, somewhere in the world, someone dies from breast cancer. That is more than 1,876 women and men every day. This collection is about celebration and remembrance. We look to honor the journeys of all those affected by breast cancer; celebrating the triumphs, revering the battles, and commemorating those that are no longer with us. Many of Hooker Furnishings' employees, former employees, friends, and family members have had their lives forever changed by breast cancer, and it is a cause that is near and dear to our company. The group is characterized by signature pink hues, soft curves, and feminine silhouettes, juxtaposed with several hearty, robust pieces that represent the incredible strength and fortitude of those affected by breast cancer.

**Status:** New

**Finish:** White exterior with reverse handpainted glass front doors. Door fronts feature pink and gold coloration.

**Features:** Three touch latch doors with handpainted glass doors  
One large removable and adjustable shelf behind left pair of doors

One adjustable shelf behind right door

**Material:** Maple Veneer, Tempered Glass and Handpainting

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
