

## FABRIC

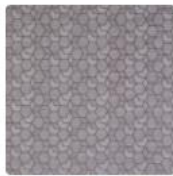

Hancock & Moore introduced fabric into its line after requests from our valued customers. We are able to build the same quality furniture in fabric as we do in leather. We have a wide selection of over 500 beautiful fabrics ranging from 100% silk to cotton/acrylic/polyester blends. Fabrics are hand selected, much like leather, to insure only the best materials are used.

Each fabric has its own distinctive design and texture, with patterns of plaids, tapestries and prints. Fabrics add a dimension of their own from a playful design to a velvety texture. Fabric has become a popular choice for many of our furniture styles. The right fabric or combination of fabrics can tie a room together perfectly with a decorative element or match one's personality with its unique style.
