Director of furniture Aimee Kurzner says of the Royce Silver Gray Chair, "I really love this exposed wood front with solid wood fretwork." The gray chair has loose seat and back cushions, and a fully upholstered seat deck. The chair is made of solid oak with our Winter Gray finish, which has tremendous character to it. The Royce, which is upholstered in F0236 Swagger Silver fabric, also comes in muslin. We also offer the Royce in a green fabric with Chanterelle-finished wood tone frame.
