

PORTHCAWL

SOFA | SM8190-SF

DETAILS:

Conceived in part to be cost-efficient, this set enjoys a smaller scale that is elevated by grand styles. The ivory-colored sofa serves as the centerpiece; english-style rounded low-profile arms are accented by welt-cord trim while the tapered solid wood feet are darkly stained. Matched with a nearly identical petite-statured loveseat, the pair shares pillows featuring patterns that correspond directly to those of the chairs and ottoman.
