Availability: In Stock

## **DESCRIPTION**

Though our Tyler swivel chair looks like it's sprouting wings to take flight, the dynamically designed piece will serve as your favorite earthly spot during movie or coffee time. The outward arcing arms and tall back bring this chair its extra dose of flair, while the sumptuous seat and back cushions give it the comfort you'll come to expect when it's time to land. It is slipcovered so you can choose from five different colors to express your natural personality. We also offer the Tyler in a stationary chair.
