## NOTES

Power recliner provides soothing movement in the seated position, helping you relax. Power control on the arm independently adjusts the headrests, recline and lumbar for a personalized sit. The recline button returns the headrest, footrest and lumbar to their original positions. The USB charging port built into power control keeps devices powered up and ready to use. Pull-tufted, triple-ridge back cushions support your back and have distinctive look. Padded over-caster truck arms enhance comfort and provide additional forearm support. Contoured seat with dual flex for a comfortable, tailored look. Built-in with the ChaiFlex Spring System™—sturdy steel ribbons attached to flexible coils that offer a wide range of motion and durability. High-density cushions consist of a high-resiliency, high-density polyurethane foam core with a soft fiber wrap that ensures long-lasting comfort as you use and recline. Available in leather/match options that will hold up in the most demanding environments. Available in more than 50 leather options to suit any decor. Power control as you recline allows for easy lifting and maneuvering through doorways. Swivel mechanism allows seamless side-to-side motion. Gliding mechanism provides soothing movement that helps you relax. Hydraulic actuated recline system on the base allows you to manually adjust between sitting and reclining. Available in durable leather upholstery that holds up in the most demanding environments. The power control allows you to independently adjust the recline in a downward motion. Power control on the arm effortlessly adjusts the recline, keeping you comfortable. Power control on the arm independently adjusts the headrest and recline for a personalized sit. The recline button returns the headrest, footrest and lumbar to their original positions. The USB port is included on the power control for powering electronics. The technology only uses power when the USB port is plugged in. Lower the footrest by applying pressure to it in a downward motion. Lowering the footrest with the handle can damage the recliner. Power allows you to smoothly recline to any position. A single USB port is included on each power button control on styles with arms. Power control allows you to independently adjust the recline and headrest. A separate home button returns the headrest and footrest to their original positions with one touch.
