Availability: Extremely Low Inventory

Type: Chests and Dressers, Decorative Chests, Hall Chests

Category: Living Room

Collection: Accents

Number of Shelves: 2

Style: Modern/Contemporary

Finish: Dark Wood

Brand: PFC

Product Description: Bring sophistication to your space with our 2-Door Accent Chest, featuring a streamlined silhouette perfect for contemporary spaces. Behind two doors are two spacious shelves that can be adjusted or removed to customize the storage according to your needs. The black finish with a deep, espresso-like undertone highlights the wood's natural texture, giving it an elegant, timeless appeal. A contrasting light brown circle design on the door fronts and a circular design handle pull adds modern flair, creating a striking focal point and a distinctive design element. This piece is crafted from oak veneers and solid hardwood, making it a durable and stylish addition to living rooms, bedrooms, or entryways.

Collection Features: Our exquisite collection of accent pieces featuring stunning curios, door cabinets, and pedestals add a touch of elegance to any space. Whether showcasing your favorite collectibles in a sleek curio or adding functional beauty with a chic cabinet or chest, our curated selection blends timeless craftsmanship with modern style. Each piece offers versatile storage and display solutions that complement any room.

Status: Active

Finish: A black finish with dark brown undertones exudes rich sophistication, adding depth and warmth to any space

Features: Embodies sleek simplicity with a focus on modern, contemporary design

Two adjustable removable shelves two behind doors offer ample storage space for your favorite household items

When the doors are closed, the black finished handle pulls align to form a bold, complete circle, creating a visually captivating focal point on the front

Material: Quartered oak veneer

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat

and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
