Collection Features: Grand, oversized & deep-seated, the Wilder Modular Sectional exudes fall-into-me comfort without compromising style. Available in a variety of fabric & leather options, this sectional is as functional as it is plush. With layer back cushions, loungeworthy seats and wide track arms, this sofa gives off major sit-and-stay-awhile vibes.

Features: Wide track arm
Loose seat back with rectangle kidney pillow on each seat

Material: Fabric

Finish Construction: M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Our M upholstered furniture collection pieces are benchmade from sustainably sourced wood and upholstered start to finish by our skilled craftspeople in both North Carolina and Virginia. Every piece has been thoughtfully designed for today's modern lifestyle. Frames are constructed of sustainably certified kiln dried engineered hardwood. Frame parts are joined with precision cut interlocking joints that are glued, stapled to reduce movement, twisting and warping. Frames have cornerblocks that are glued and screwed at stress points, especially on seat rails and other high stress areas. Depending on rail thickness, frames may be of a hybrid construction, adding a solid hardwood inner frame to give seat rails additional support.

Seat Back: Loose seat back

Seat: Poly Down Blend - High resiliency plant-based foam core, wrapped with a 50/50 down blend cover and enclosed in a down proof ticking.

Fabric: Choice of over 130 fabrics including a wide selection of performance fabrics

Padding: Padded outside arms and back for smoother surface and neater appearance.

Seating Construction: Seat bases are supported by a sinuous arc metal spring construction. Our springs are made from partially recycled content. Due to the design requirements of some styles, rubberized webbing may be used instead of springs. Double rows of springs are used at the corners for extra support. Seat bases are insulated with polypropylene fabric and are padded with synthetic fiber.
