Product Description: The Archives Console Table combines modern functionality with classic design. Featuring a two-tone finish, this narrow rectangular table showcases a Classic Walnut finished top and a contrasting black finished base. Its slim profile makes it perfect for entryways, hallways, or behind a sofa, offering a refined elegance with a timeless look. This console table is the perfect balance of style and practicality, enhancing any living space.

Collection Features: Archives taps in to a design trend that mixes modern, trendy styles with historic elements, known as "hipstoric". Complementing a variety of design styles with timeless forms and elements, the trend creates a sense of undeniable luxury. Layering rich and authentic materials, such as figured walnut veneers, top grain leather, woven raffia, and polished marble, Archives' assortment speaks to consumers who yearn for structured elegance with a dash of mystery

Status: New

Finish: The high clarity Classic Walnut finish over figured quartered walnut veneers adds richness and depth on the top. The base features the Black finish.

Features: Two-tone finish with black accent finished base and Classic Walnut finished top
Narrow, rectangle shape

Material: Figured Quartered Walnut Veneer

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
