Product Description: Warm up your modern style with the Storia Round End Table combining wire-brushed, greige-colored Oak Veneers with stainless steel accents in a compact shape that makes it versatile for a variety of spaces.

Collection Features: Storia is a warm modern group that fits perfectly into today's casual transitional interiors. Storia is crafted of sand-blasted Oak in a greige color with the wood grain revealed. The Oak is mixed eclectically with sophisticated materials like plated nickel and nailheads. The collection includes a desk, lateral file, low bookcase, bookcase, entertainment console, matching living room tables and a console.

Status: Active

Finish: Medium wood finish with stainless steel accents. Distressing includes wire brushing and sandblasting.

Features: Round shape

Medium wood finish

Stainless steel accents

Levelers

Material: Oak Veneers and Stainless Steel

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
