 HARDWARE KIT

HOT ONLY
 HK-FBF-XX*
 HOT ONLY FILTRATION
 HARDWARE KIT

HOT / COLD
 HK-FBF-XX*
 HOT/COLD FILTRATION
 HARDWARE KIT

LIFETIME WARRANTY

All Waterstone products manufactured by Waterstone carry a **Limited Lifetime Guarantee** against functional defect in material or workmanship in a residential application. Consult with an authorized Waterstone dealer for complete information about our warranty.

WARNING - Since 2005, Waterstone has continued to advise all of our customers against the installation of any brand of in-line water chiller unit with our faucets. Compressor style chiller units have been proven to arbitrarily exceed the standard household in line pressure ratings causing the faucet inlet connection line to burst and create the potential for water damage claims in the field.

USE OF AN IN-LINE INSTALLATION OF A WATER CHILLER WITH A WATERSTONE FAUCET OF ANY KIND WILL VOID OUR WARRANTY.

Waterstone can not and will not be held liable for damages created by a use for which our products were not designed. Waterstone will only recommend the installation of a water chiller in the vented side (in place of a hot tank) with one of our Hot or Hot & Cold Filtration faucet models.

For any questions or concerns about your faucet's warranty, contact Waterstone.

UNDER SINK SYSTEMS

To complete your water filtration system, Waterstone recommends adding our Multi-Stage Filtration Unit and a Insta-Hot Tank. Along with your Waterstone Filtration Faucet, create the ultimate under sink water purification system. Systems are sold separately.

HOSE CONFIGURATIONS

Waterstone offers three types of filtration faucets - Cold Only, Hot Only and Hot/Cold. Each model has it's own unique hose configuration. The faucets can be connected to a water filtration system and/or an instant hot water tank.
