

LAQUILA

DINING TABLE | CM3542GY-T

DETAILS:

This distinctly shaped table will help you build an outstanding dining space. The gray table top features a hint of warm tone, displaying a diamond wood grain pattern that plays off the cut-out corners. Playing off the same hue is the soft gray linen-like fabric, offering comfortable seating on the matching chairs and bench. The ladder back design shows protrusions on the sides of the chair; it's an element found on both ends of the trestle base as well, a sort of rugged style cleverly complemented by the wire-brushed frames.
