

C2N-RTHS

Cresnet Remote Temperature and Relative Humidity Sensor

The C2N-RTHS is a wall-mounted temperature and relative humidity sensor that communicates directly with any Crestron® Control System via the Cresnet control network. One-piece mounting makes the C2N-RTHS simple to install. The 1-1/2 inch diameter face protrudes just 1/8 inch from the wall surface and is easily painted or wallpapered to blend into the wall surface.
