## 1. Global Product Information

### Timing & Setup

Planned announce date <i>When the press and retailers are approved to announce</i>	August 15, 2023
Planned on sale date <i>When retailers are approved to begin selling</i>	December 13, 2023

### Global SKU List

Model Name	Model Size	Color	Region	EAN (0+UPC) / JAN / UPC
Dymension CI DC-65 MAX	6.5"	White Grille (Paintable)	Americas, APAC	747192140540
Dymension CI DC-80 MAX	8.0"	White Grille (Paintable)	Americas, APAC	747192140571

### (1) Product Category

Unless this is a brand new type of product for Definitive Technology, must be a navigable category **already found on DefinitiveTechnology.com**.

Architectural & Install > In-Ceiling Speakers
---

### (2) Model Number

The product model number as it will appear within DefinitiveTechnology.com navigation, for example **in the top-of-the-page breadcrumb**.

DC-65 MAX
DC-80 MAX

### (3) Product Name and Type

The product name shown in in the eyelash copy that sits at the **top of the DefinitiveTechnology.com PDP**. This should be the product name as well as the type of product. No more than five words.

DC-65 MAX Round In-Ceiling 6.5" Speaker
DC-80 MAX Round In-Ceiling 8" Speaker

## Buy Box / SEO Product Description

*The subhead to the product name at **the top of the DT.com PDP**.*

Round In-Ceiling Speaker With Pivoting Woofer Available in 6.5" and 8" variants

## Available Color(s)

*Enter marketing-approved color descriptions, not the factory-provided colors. If the product only comes in one color, please still provide it here. **Appears in the DT.com product detail page buy box.***

White Grille (Paintable)

## SEO Product Name

*Not shown on DT.com, but will be used for search engine optimization, for example on Amazon.com.*

Dymension CI MAX Series Round In-Ceiling Speaker With Pivoting Woofer available in 6.5" and 8" Variants

## Product Series

*Only if the product is part of a series – for example a speaker or sound bar line.*

Dymension CI MAX Series

## 2. Product Positioning

### (4) Product Positioning Headline

Three or four words that present the core essence of the product. In other words, what am I getting if I buy this? This is the top-of-the-page **headline on the DefinitiveTechnology.com PDP**. (See graphic above.)

Elevated Acoustics, Stealth Style
-----------------------------------

### Product Description

Focus on how this product differentiates itself from the competition and the rest of the DT lineup. Why would you choose this product over another in its class or another from Definitive Technology?

<b>10 Words</b>	Premium in-ceiling speakers with patented pivoting woofers and discreet designs
<b>25 Words</b> <i>Appears between the top banner and the buy box on the DT.com PDP.</i>	Dymension CI™ MAX premium in-ceiling speakers deliver precise sound for high-performance home theater and whole-home systems, with features like our patented pivoting woofer; discreet, flush-mount design; and robust weather protection.
<b>50 Words</b>	Dymension CI MAX premium in-ceiling speakers deliver breathtaking sound for anything from whole-home audio to ultimate state-of-the-art home theaters while virtually vanishing into any room. With features like our patented pivoting woofer; discreet, flush-mount design; toolless installation; and robust IP55-rated protection against water and dust, it's never been easier to experience thrilling cinematic sound in any space.
<b>Long Overview</b>	Dymension CI MAX in-ceiling speakers deliver breathtaking sound for anything from whole-home audio to ultimate state-of-the-art home theaters while virtually vanishing into any room. Our highest-performance in-ceiling speakers, available in two sizes, feature our patented pivoting woofer; discreet, flush-mount designs; and IP55-rated protection against water and dust. Flagship Definitive Technology acoustic innovations like BDSS™ (Balanced Double Surround System) woofers with Linear Response Waveguide, all-new aluminum oxide dome tweeters, and advanced crossover networks deliver rich, balanced sound with effortless bass and crystal clear highs. An innovative toolless system makes installation a snap. It's never been easier to experience thrilling cinematic sound in any seat, in any space. Combine timbre-matched Dymension™, Dymension CI, and Mythos® speakers and Descend Series subwoofers to design the high-performance home theater system of your dreams.

<p><b>Series Overview</b></p>	<p>The Dymension CI™ MAX Series, Definitive Technology's highest-performance installed speaker line, leverages our most advanced acoustic innovations in discreet, adjustable in-ceiling and in-wall speakers that provide breathtaking sound for anything from simple whole-home audio and light commercial applications to ultimate state-of-the-art home theater systems.</p> <p>Eight models, including in-ceiling speakers and surrounds, in-wall LCRs, and a bipolar in-wall surround, deliver iconic Definitive Technology sound in the most sophisticated home theaters without compromising the aesthetics of your space. Models can be combined with free-standing Dymension speakers to outfit media rooms and home theaters of any size.</p> <p>Dymension CI MAX Series' simple, elegant two-piece mounting system with pivoting "dog" arms allows speakers to be installed without tools, safely and securely, in minutes. Pre-construction brackets are available for all Dymension CI models.</p> <p>CI MAX Series speakers produce rich, balanced sound with effortless bass and crystal clear highs, thanks to flagship Definitive Technology acoustic innovations like mineral-filled BDSS™ woofers with Linear Response Waveguide™, newly engineered aluminum oxide dome tweeters, and advanced crossover networks. Install speakers in convenient locations and direct sound exactly where you want it, thanks to patented pivoting drivers. Speakers are IP55-rated for use in high-humidity and outdoor spaces and install in minutes using a toolless system.</p> <p>Combine timbre-matched Dymension™, Dymension CI, and Mythos® Series speakers and Descend Series subwoofers to design high-performance home-theater or whole-home systems of any size and scale.</p>
-------------------------------	---

### Top Three Product Benefits

Focus on where this product leads its category and how this product differentiates itself from other similar products. Why would you buy this product over another competitive product, or another product from Definitive Technology? **Appears just below the second full-width image on the DT.com PDP.**

Each benefit should be no more than **four words**. Each reason to believe should be no more than **12 words**.

Benefit	Reason to believe
Premium Definitive Technology Sound	Definitive Technology's most advanced acoustic innovations provide audiophile-grade home-theater sound.
Precision Sound	A patented pivoting woofer and tweeter direct sound precisely where you want it.
Simple Toolless Installation	Install speakers in minutes using an innovative toolless mounting system.

### Target Customer

Primary	Home AV system integrator: Custom integrators are the gatekeeper to the end-user. The integrator chooses which technology to introduce and/or recommend to the client and is also the one who installs and supports all the technology in the home. Integration companies can be large operations with staff upwards of 100 or much smaller at around 5 to 10 people.
Secondary	Homeowners seeking an installed sound system for a new home or renovation

### Common Applications

Primary	High-performance home theater: installed speaker systems and combination free-standing and installed speaker systems
Secondary	Distributed whole-home and light commercial systems

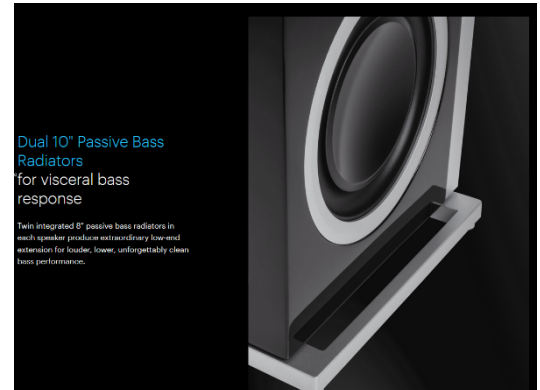

### 3. Product Benefits & Features

#### Core Product Features

Core Features are the technical attributes of the product that allow it to deliver a Definitive Technology experience. The feature descriptions should explain the feature itself, the advantage delivered by that feature, and the unique benefit made possible by that advantage.

The corresponding image is the photograph you would like to show beside the feature on the DT.com PDP.

These features will be grouped into sub-sections on the DT.com PDP. A chart to help with this is provided at the bottom of this section.

Feature Name <i>No more than <b>five words</b>. Shows in blue text on the DT.com PDP.</i>	Advantage Statement <i>No more than <b>ten words</b>, typically begins with the word "for" to continue the thought from the Feature name.</i>	Benefit Description <i>30 words recommended.</i>	Corresponding Image
<b>TECHNOLOGIES</b>	Our signature acoustic technologies, optimized for architectural speakers		
Two Speaker Sizes	for flexibility in power and placement	Two woofer sizes provide unparalleled design freedom to strategically position speakers within your home. Whether you seek seamless integration in compact spaces or crave room-filling, immersive audio in larger areas, the choice of 6.5" or 8" woofers empowers you to sculpt a sonic landscape that's the ultimate blend of style, functionality, and acoustic performance.	
Patented Pivoting Woofer	for smooth, natural midrange and the ultimate sweet spot	A light, stiff, mineral-filled woofer produces rich, clear mids, for the most lifelike music and dialog. Install speakers virtually anywhere—even sloped and coffered ceilings—while pointing sound exactly where you want it, for front-row sound anywhere in the room. Choose the DC-65 MAX, with a 6.5" woofer, or for even more powerful sound and deeper bass, the 8" DC-80 MAX.	
BDSS Technology	for robust lows and mids	Dymension CI™ Max Series woofers feature Definitive Technology's revolutionary Balanced	

		Double Surround System (BDSS™), which improves driver excursion and output, delivering superior punchiness and detail and a more even midrange throughout the room.	
Linear Response Waveguide	for a seamless soundstage	Our patented Linear Response Waveguide™ extends both on-axis and off-axis frequency dispersion for more natural midrange and precise imaging and an open, airy sound.	
Pivoting Aluminum Oxide Dome Tweeter	for superior imaging everywhere in the room	An ultralight, rigid, 1" aluminum oxide dome tweeter produces crisp, distortion-free highs that extend far beyond the range of human hearing. And because it's aimable, you can place speakers in convenient locations while aiming sound precisely where it matters most.	
Tweeter Attenuation Switch	for tailored sound in any space	A three-position high-frequency attenuation switch (-2 dB, flat, + 2 dB) adjusts tweeter response to compensate for acoustic issues like overly bright- or dull-sounding rooms.	
Sophisticated Crossovers	for optimal driver performance	A premium crossover network ensures balanced voicing and smooth response. Crossovers feature covers that protect them from the elements.	
<b>PRODUCT FEATURES</b>	Seamlessly integrated features maximize performance for an elevated audio experience.		
Discreet Design	for the ultimate vanishing act	Integrated frames and baffles; paintable, micro-perforated magnetic grilles; and a flush, border-free design mean speakers fade into the background for a virtually invisible appearance that's in perfect harmony with your space.	
Toolless Installation	for fast, easy installs	A simple, elegant two-piece system with pivoting "dog" arms installs effortlessly, in minutes—no tools, no hassles. Pre-construction brackets are available for all Dymension CI™ models.	
Timbre-Matching	for cohesive system sound	With Definitive Technology, fidelity runs in the family: Combine timbre-matched Dymension™, Dymension CI, and Mythos® speakers and Descend Series subwoofers to design the high-performance home theater system of your dreams.	
IP55-Rated Construction	for robust weather protection	Stunning sound doesn't have to be limited to indoor spaces. With IP55-rated protection against dust and low-pressure water streams, trust that you can bring premium sound to any space, including high-humidity environments and outdoor areas.	

## Grouped Feature or Benefit Stories

The DT.com PDP template allows you to group **three or four feature or benefits** together to tell a deeper story about the product.

If you would like to use this section, please pick features that work together to create **a unique, differentiated experience** that you can only get from Definitive Technology, or from the specific product itself.

Story Topic:		Dymension CI PRO Series: Maximum-Performance Sound for Every Space.		
Story Headline <i>No more than <b>four</b> words.</i>		Story Benefit Statement <i>No more than <b>eight</b> words. May start with the word "for".</i>		Story Benefit Description <i>No more than twenty-five words.</i>
Enjoy Superior Sound Anywhere		For sound that never competes with your space		The only every-space solution for audiophile-grade in-ceiling sound.
Subtopic <i>Keep this generic. This is the in-module navigation on DT.com.</i>	Benefit <i>No more than five words.</i>	Description <i>30 words recommended. 50 words maximum.</i>		Corresponding Image
High-Performance Home Theater	The Ultimate in Cinema Sound	Eight premium models, from in-ceiling speakers to in-wall LCRs and surrounds to a groundbreaking bipolar in-wall surround speaker, let you create a supreme sonic experience for state-of-the-art home theaters of any size.		
Whole-Home Audio	Speakers That Are Heard, Not Seen	Discreet, IP55-rated weather-protected speakers bring high-performance sound to your entire home, from dedicated theaters to kitchens, bedrooms, and outdoor spaces.		
Versatile Commercial Applications	Elevate Your Customers' Experience	From restaurants to spas, give your business a competitive edge with rich, enveloping sound that's never intrusive.		

## 4. Merchandising Content

### Product Fact Tag Bullets

Focus on benefits and features that differentiate the product in a retail environment. Prioritize carefully, as different retailers will cut-off the list in different places. **55 character maximum per bullet. Appears on retailer websites and in-store fact tags.**

1	Audiophile-quality sound in in-ceiling speakers
2	Effortless, toolless installation; pre-construction brackets available
3	CI Series is IP55-rated for use outdoors and in high-humidity spaces
4	Patented pivoting BDSS™ woofer directs rich sound anywhere
5	Pivoting tweeter aims highs where you want them
6	Tailor sound with a three-way high-frequency adjustment switch
7	Advanced crossover optimizes drivers for balanced sound
8	Low-profile, borderless design vanishes into any room
9	Timbre-matched with Dymension™ and Mythos® speakers
10	6.5" (DC-65 MAX) and 8" (DC-80 MAX) variants

### A+ Features

List the **six benefits or features** from Section 3 of this document to ensure they appear in the "From the Manufacturer" section of this product's Amazon product page.

	Headline	Copy	Photo / Image Requirements
1	Two Driver Sizes	Two woofer sizes provide unparalleled design freedom to strategically position speakers within your home. The choice of 6.5" or 8" woofers empowers you to sculpt a sonic landscape that's the ultimate blend of style, functionality, and acoustic performance.	
2	Pivoting BDSS Woofer	Light, rigid, mineral-filled woofers, available in 6.5" (DC-65 MAX) and 8" (DC-80 MAX) versions, feature Definitive Technology's Balanced Double Surround System (BDSS™), which improves excursion and produces a wide, balanced sound stage. A pivoting assembly directs sound anywhere in the room.	
3	Linear Response Waveguide™	Our patented waveguide extends both on-axis and off-axis frequency dispersion for more natural midrange and precise imaging and an open, airy sound.	

4	Pivoting 1" Aluminum Oxide Dome Tweeter	An ultralight, rigid, 1" aluminum oxide dome tweeter pivots to direct crisp, clear sound for maximum clarity and lifelike imaging independent of speaker placement.	
5	Sophisticated Crossover	A premium crossover network ensures optimal driver performance for balanced voicing and smooth response. Crossovers feature covers that protect them from the elements.	
6	Tweeter Attenuation Switch	A three-way high-frequency adjustment switch (-2 dB, flat, + 2 dB) lets you fine-tune high-frequency response to compensate for overly bright- or dull-sounding rooms.
