Eight-way hand tie construction
Hundreds of leather and fabric customization options and a range of finishes to choose from add your personal touch

Padding: For quality tailoring and durability, the outsides are padded with strong bonded fibers.

Material: With Bradington-Young's customization options you can choose from a selection of high-quality leather, luxurious fabric, or a stylish combination of both.

Frame Construction: The frame is engineered from the finest multi-ply, 7/8 inch laminated hardwood components that are precision machined for an exact fit. Mortise and Tenon joints are reinforced with cross-banding to create frames with superior dimensional stability.

Seat Back: Loose back cushion firmly secured with Velcro. Filled with 100% virgin polyester fibers enclosed in a special ticking designed to provide pillow-soft comfort.

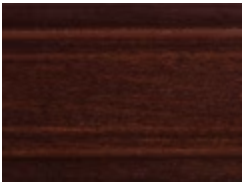

Seat: Spring Down-Cushions consist of a 4 1/2 inch MARSHALL coil unit encased in premium foam. The cushion is then wrapped with a low melt fiber on top and bottom. The Spring Down cushion is then surrounded by a down-proof ticking filled with a luxurious blend of down, feathers and fibers. This cushion is designed to provide superior comfort combined with great resiliency.

Seating Construction: This style employs double-cone coil springs that are eight-way hand tied and then secured to polypropylene webbing that is reinforced with steel banded grids for additional support.

Leather: Hundreds of leather options available.
