About the Collection

Our Winterthur Estate collection interprets classic forms that were inspired by architectural details as well as the extensive collection of decorative arts housed at the former home of Henry F. du Pont. The Obsidian Black finish gives a modern matte appearance to the premium aluminum frame and is contrasted by the aluminum top that is hand-finished to resemble travertine. Powder-coating the aluminum provides a long-lasting and durable finish, while our WeatherMaster ultimate outdoor cushion showcases superior comfort in all of the deep seating. And because the frame is powder-coated, you know it's durable in any weather climate
