Executive Bluetooth® headphones with Active Noise Cancellation

We want your digital music sources sound spectacular no matter where you go. Symphony 1 is our solution. It creates rich detail, full fidelity and deep bass for exhilarating audiophile performance. A high quality digital-analog converter ensures the best audio possible. Bluetooth wireless technology with aptX® and AAC delivers high quality sound from your smartphone, tablet or computer. A rechargeable Lithium-ion battery delivers 10 hours of play time with normal ANC usage. Tactile On-Ear Controls include ANC and Bluetooth, as well as change tracks, volume, play/pause and call waiting. Premium materials and build quality offer the fit and finish Definitive Technology customers have come to expect.
