

PICOTEE

LOVESEAT | SM1279-LV

DETAILS:

A mixture of classic elements and modern design, this loveseat will bring a load of style to your home. Cushions are T-shaped, allowing for the seats to wrap around in front of the slightly-flared armrests, gently sloping inward for a perfect fit. The back pillows are removable and plush for a cool, laid-back attitude. In front, the bottom edge is lined with individual nailheads, hammered one by one with care. The dark pillows and eclectic patterns provide an eye-catching contrast to the light gray base of the linen-like fabric.
