INTRODUCTION

Welcome to our **family**

Thank you for bringing Frigidaire into your home! We see your purchase as the beginning of a long relationship together.

This manual is your resource for the use and care of your product. Please read it before using your appliance. Keep it handy for quick reference. If something doesn't seem right, the troubleshooting section will help you with common issues.

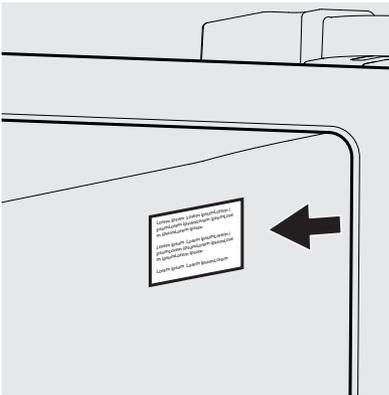

FAQs, helpful tips and videos, cleaning products, and kitchen and home accessories are available at Frigidaire.com.

We are here for you! Visit our website, chat with an agent, or call us if you need help. We may be able to help you avoid a service visit. If you do need service, we can get that started for you.

Let's make it official! Be sure to register your product.

Keep your product info here so it's easy to find.

Model Number _____
Serial Number _____
Purchase Date _____

Serial Number Location

Installation Checklist

Doors

- Door seals completely to cabinet on all sides
- Doors are level with each other.

Leveling

- Appliance is level side-to-side and tilted 1/4" (6 mm) front-to-back
- Cabinet is level on the floor.

Electrical Power

- House power turned on
- Appliance is plugged in

Final Checks

- Shipping material removed
- Refrigerator and freezer temperatures set to recommended setting
- Crisper humidity controls set (some models)
- Registration card sent in

WARNING

Please read all instructions before using this appliance.

Safety Definitions

 This is the safety alert symbol. It is used to alert of potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

DANGER

DANGER indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

WARNING

WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION

CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury.

IMPORTANT

IMPORTANT indicates installation, operation or maintenance information which is important but not hazard-related.

WARNING

CALIFORNIA RESIDENTS ONLY
Cancer and Reproductive Harm
www.P65Warnings.ca.gov

DANGER

DANGER Risk of fire or explosion. Flammable refrigerant used. Do not use mechanical devices to defrost refrigerator. Do not puncture refrigerant tubing.

DANGER Risk of fire or explosion. Flammable refrigerant used. To be repaired only by trained service personnel. Use only manufacturer-authorized service parts. Any repair equipment used must be designed for flammable refrigerants. Follow all manufacturer repair instructions. Do not puncture refrigerant tubing.

CAUTION

CAUTION Risk of fire or explosion. Dispose of refrigerator properly in accordance with the applicable federal or local regulations. Flammable refrigerant used.

CAUTION Risk of fire or explosion due to puncture of refrigerant tubing. Follow handling instructions carefully. Flammable refrigerant used.

Safety Instructions

- DO NOT store or use gasoline, or other flammable liquids in the vicinity of this or any other appliance. Read product labels for warnings regarding flammability and other hazards.
- DO NOT operate the unit in the presence of explosive fumes.
- Remove all staples from the carton. Staples can cause severe cuts, and also destroy finishes if they come in contact with other appliances or furniture.

Child Safety

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Destroy or recycle the carton, plastic bags, and any exterior wrapping material immediately after the appliance is unpacked. Children should **NEVER** use these items to play. Cartons covered with rugs, bedspreads, plastic sheets or stretch wrap may become airtight chambers, and can quickly cause suffocation.

4

IMPORTANT SAFETY INFORMATION

Proper Disposal of your Appliance

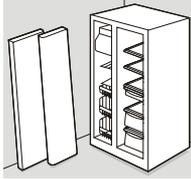

Risk of child entrapment

Child entrapment and suffocation are not problems of the past. Junked or abandoned appliances are still dangerous – even if they will sit for “just a few days”. If you are getting rid of your old unit, please follow the instructions below to help prevent accidents.

We strongly encourage responsible appliance recycling/disposal methods. Check with your utility company or visit energystar.gov/recycle for more information on recycling your old appliance.

Before you throw away your appliance:

- Remove doors.
- Leave shelves in place so children may not easily climb inside.
- Have refrigerant removed by a qualified service technician.

bulb to avoid electrical shock. Use a 5-watt or less AC LED light bulb only.

- Performance may be affected if the voltage varies by 10% or more. Operating the appliance with insufficient power can damage the compressor. Such damage is not covered under your warranty.
- Do not plug the unit into an electrical outlet controlled by a wall switch or pull cord to prevent the unit from being turned off accidentally.

IMPORTANT

Turn off power to your appliance you must unplug the power cord from the electrical outlet.

Grounding type wall receptacle

Do not, under any circumstances, cut, remove, or bypass the grounding prong.

Power cord with 3-prong grounded plug

WARNING

These guidelines must be followed to ensure that safety mechanisms in this unit will operate properly.

Electrical information

- **The appliance must be plugged into its own dedicated 115 Volt, 60 Hz., 15 Amp, AC only electrical outlet.** The power cord of the appliance is equipped with a three-prong grounding plug for your protection against electrical shock hazards. It must be plugged directly into a properly grounded 3-prong receptacle. The receptacle must be installed in accordance with local codes and ordinances. Consult a qualified electrician. Avoid connecting the unit to a Ground Fault Interrupter (GFI) circuit. **Do not use an extension cord or adapter plug.**
- If the power cord is damaged, it should be replaced by an authorized service technician to prevent any risk.
- Never unplug the appliance by pulling on the power cord. Always grip the plug firmly, and pull straight out from the receptacle to prevent damaging the power cord.
- Unplug the unit before cleaning and before replacing the AC LED light

WARNING

Do not use electrical appliances inside the food storage compartments of the appliance unless they are of the type recommended by the manufacturer.

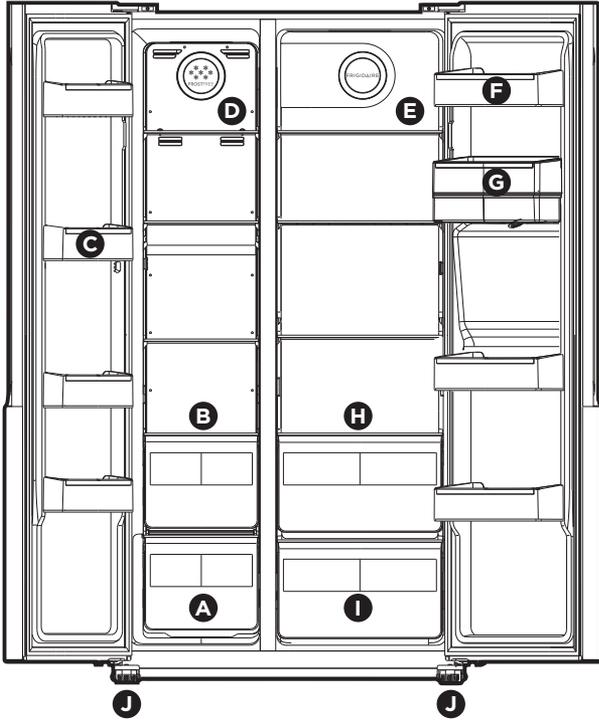

IMPORTANT

CFC/HCFC Disposal

Your old unit may have a cooling system that used CFCs or HCFCs (chlorofluorocarbons or hydrochlorofluorocarbons). CFCs and HCFCs are believed to harm stratospheric ozone if released to the atmosphere. Other refrigerants may also cause harm to the environment if released to the atmosphere.

If you are throwing away your old appliance, make sure the refrigerant is removed for proper disposal by a qualified technician. If you intentionally release refrigerant, you may be subject to fines and imprisonment under provisions of environmental legislation.

IMPORTANT

Accessories are available for your appliance and may be purchased at Frigidaire.com or by calling 1-800-374-4432 (Frigidaire.ca or 1-800-265-8352 in Canada) or from an authorized seller.

6

INSTALLATION

This Use & Care Guide provides general operating instructions for your model. Use the unit only as instructed in this Use & Care Guide. **Before starting the appliance, follow these important first steps.**

Location

- Choose a place that is near a grounded electrical outlet. **Do Not** use an extension cord or an adapter plug.
- If possible, place the unit out of direct sunlight and away from the range, dishwasher or other heat sources.
- Install the appliance on a floor that is level and strong enough to support a fully loaded unit.

WARNING

This appliance is intended for use in residential household and similar interior applications such as:

- a kitchen/kitchenette
- a pantry room
- a basement
- an enclosed garage
- other interior residential-type environments

CAUTION

Do Not install the unit where the temperature will drop below 55°F (13°C) or rise above 110°F (43°C). The compressor will not be able to maintain proper temperatures inside the appliance.

Do Not block the lower front of your unit. Sufficient air circulation is essential for the proper operation of your appliance.

Installation

Installation clearances

Allow the following clearances for ease of installation, proper air circulation, and plumbing and electrical connections:

| | |
|-------------|----|
| Sides & Top | 1" |
| Back | 2" |

NOTE

If your unit is placed with the door hinge side against a wall, you may have to allow additional space so the door can be opened wider.

Door Opening

NOTE

The doors are designed to shut by themselves within a 20 degree opening.

Position your unit to allow easy access to a counter or table when removing food. For the best use of drawers and freezer baskets, position the appliance where both doors can fully open.

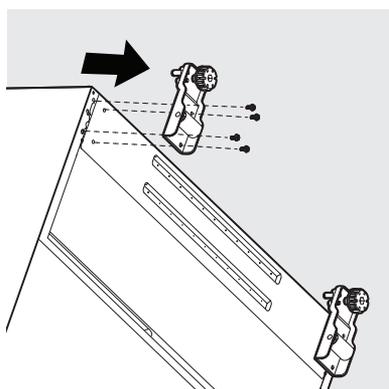

Guidelines for final positioning of your unit:

- Rest all 4 corners of the cabinet firmly on the floor.
- Level the cabinet at the front and rear.
- Tilt the sides 1/4" (6 mm) from front to back (to ensure the doors close and seal properly).
- Align the doors with each other and level.

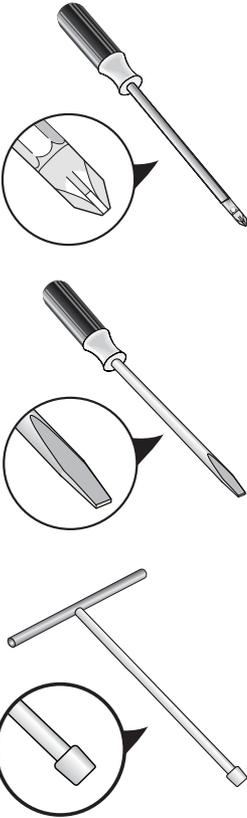

Meet all of these conditions by raising or lowering the leveling feet.

To raise: Rotate the feet clockwise by hand

To lower: Rotate the feet counterclockwise by hand

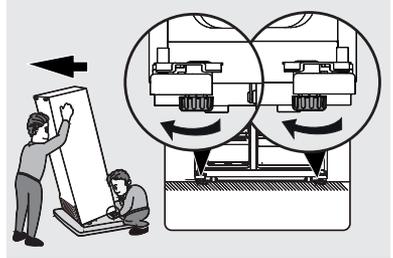

Tools Necessary

To prepare for removing the doors:

1. Ensure the unit is unplugged and empty.
2. It is better for 2 people to handle the unit during this process.
3. Rest the unit on something solid so it will not slip, then slightly tilt the unit backwards. Do not lay the unit flat as this could damage the coolant system.

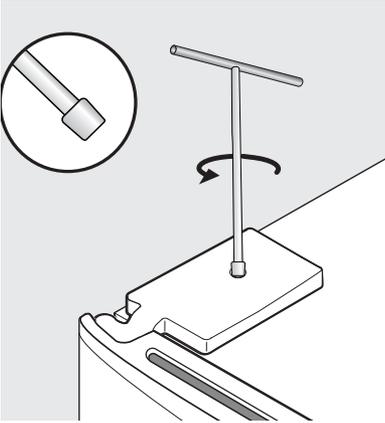

4. Save all parts removed to allow for reinstallation of the doors.

8

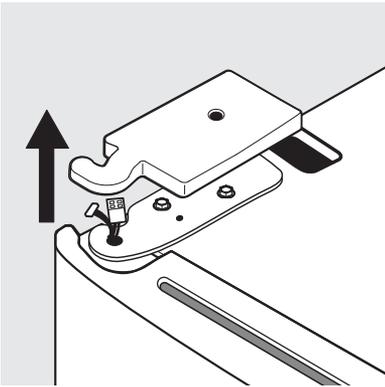

DOOR REMOVAL

To remove the doors:

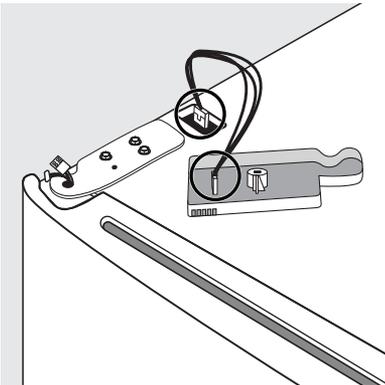

1. Using a Phillips head screwdriver, unscrew the hinge cover.

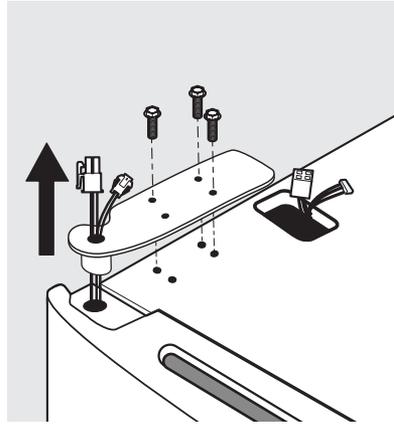

2. Remove the cover.

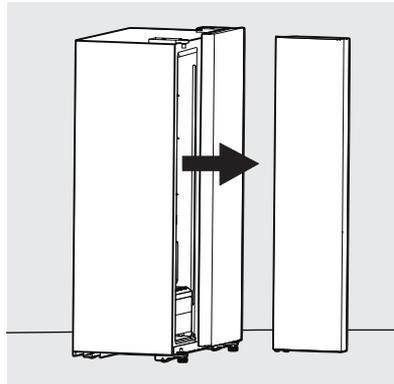

3. Disconnect the harness.

4. Unscrew 3 bolts and remove top hinge.

5. Lift to remove the door and place on a soft pad.

6. Repeat for the other door.
7. After the appliance is in position, reinstall the doors using the reverse procedure.

Freeze Boost

Vacation Mode

Refrigerator

Freezer

Mode

Using the Control Panel

Freezer Temp Displays the set temperature of the freezer compartment.

Refrigerator Temp Displays the set temperature of the refrigerator compartment.

Freeze Boost Activates a faster rate for freezing food in the freezer compartment. Use this feature when loading several items into the freezer at one time. Automatically deactivates after 50 hours.

Vacation Mode Vacation mode is designed to save energy when the unit is not being actively used and contains very few food items.

Refrigerator Press to adjust temperature of refrigerator compartment (right side).

Freezer Press to adjust temperature of freezer compartment (left side).

Modes Press to select running mode.

10 STORAGE FEATURES

CAUTION

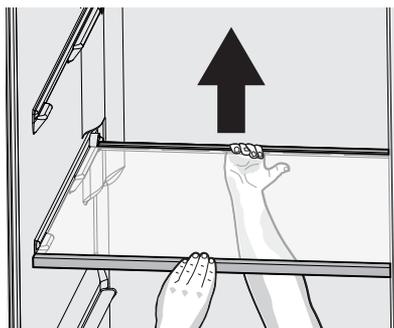

To avoid personal injury or property damage, handle tempered glass shelves carefully. Shelves may break suddenly if nicked, scratched, or exposed to sudden temperature change. Allow the glass shelves to stabilize to room temperature before cleaning. Do not wash in dishwasher.

Glass Shelf Adjustment

Easily adjust the shelves to suit your needs. Before adjusting the shelves, remove all food. Side rails support the shelves.

To adjust, lift up on the back of the shelf and pull it forward.

Replace the shelf by sliding it on top of the formed rails on the side walls of the cabinet until the rear plastic hooks of the shelf lock into the rear of the cabinet liner.

Door storage

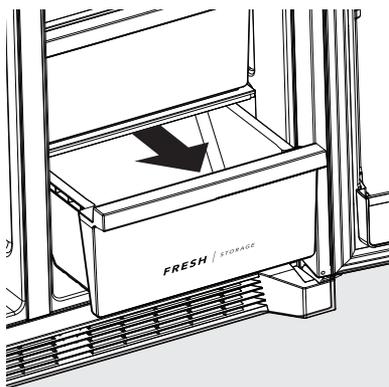

Door bins and shelves are provided for convenient storage of jars, bottles, and cans. You can quickly select frequently used items.

Some models have door bins that can accommodate gallon-sized plastic drink containers and economy-sized jars and containers. Some bins are adjustable for maximum storage capacity.

The dairy compartment, which is warmer than the general food storage section, is intended for short term storage of cheese, spreads, or butter.

Crisper

The crisper allows you the flexibility to store any manner of items including fruits, vegetables, nuts, etc. The crisper does not feature humidity controls.

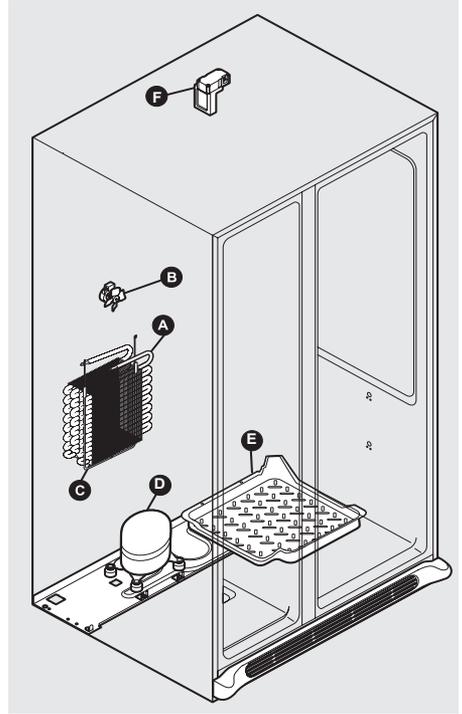

Understanding the Sounds you may Hear

Your new, high-efficiency unit may introduce unfamiliar sounds. These sounds normally indicate your appliance is operating correctly. Some surfaces on floors, walls, and kitchen cabinets may make these sounds more noticeable.

Following is a list of major components in your unit and the sounds they can cause:

- A Evaporator** Refrigerant through the evaporator may create a boiling or gurgling sound.
- B Evaporator fan** You may hear air being forced through the refrigerator by the evaporator fan.
- C Defrost heater** During defrost cycles, water dripping onto the defrost heater may cause a hissing or sizzling sound. After defrosting, a popping sound may occur.
- D Compressor** Modern, high-efficiency compressors run much faster than in the past. The compressor may have a high-pitched hum or pulsating sound.
- E Drain pan** (not removable) You may hear water dripping into the drain pan during the defrost cycle.
- F Motorized damper** May produce intermittent humming during operation.

NOTE

Energy efficient foam in your refrigerator is not a sound insulator.

NOTE

During automatic defrost cycle, a red glow in the back wall vents of your freezer compartment is normal.

12 CARE AND CLEANING

Protecting your investment

Keeping your appliance clean maintains appearance and prevents odor build-up. Wipe up any spills immediately and clean the freezer and refrigerator compartments at least twice a year. When cleaning, take the following precautions:

- Never use CHLORIDE or cleaners with bleach to clean stainless steel.
- Do not wash any removable parts in a dishwasher.
- Always unplug the electrical power cord from the wall outlet before cleaning.
- Remove adhesive labels by hand. Do not use razor blades or other sharp instruments which can scratch the appliance surface.
- Do not remove the serial plate.

Do not use abrasive cleaners such as window sprays, scouring cleansers, brushes, flammable fluids, cleaning waxes, concentrated detergents, bleaches or cleansers containing petroleum products on plastic parts, interior doors, gaskets or cabinet liners. Do not use paper towels, metallic scouring pads, or other abrasive cleaning materials or strong alkaline solutions.

NOTE

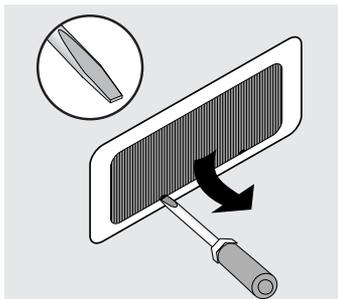

If you set your temperature controls to turn off cooling, power to lights and other electrical components will continue until you unplug the power cord from the wall outlet.

CAUTION

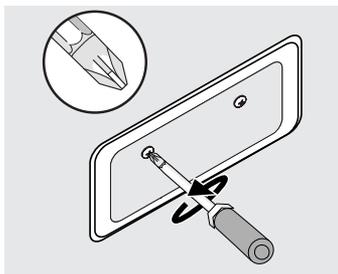

- Pull the unit straight out to move it. Shifting it from side to side may damage flooring. Be careful not to move the appliance beyond the plumbing connections.
- Damp objects stick to cold metal surfaces. Do not touch refrigerated surfaces with wet or damp hands.
- Sudden temperature changes can cause glass breakage.

Replacing the LED Light Bulb

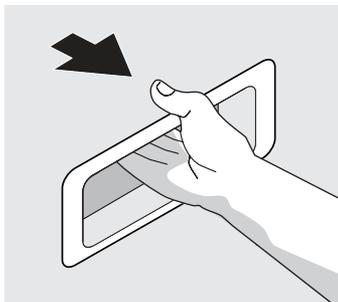

1. Unplug the refrigerator.
2. Wearing gloves, pry off the light cover.

3. Using a crosshead screwdriver, remove the screws.

4. Pull down the light box.

5. Disconnect the light harness.
6. Loosen the clips and remove LED light board. Then install a new LED light board.
7. Replace the light cover.
8. Plug in the refrigerator.

| Care & Cleaning Tips | | |
|---|---|---|
| Part | What To Use | Tips and Precautions |
| Interior & Door Liners | <ul style="list-style-type: none"> • Soap and water • Baking soda and water | Use 2 Tbsp of baking soda in 1 qt of warm water. Be sure to wring excess water out of sponge or cloth before cleaning around controls, light bulb or any electrical part. |
| Door Gaskets | <ul style="list-style-type: none"> • Soap and water | Wipe gaskets with a clean soft cloth. |
| Drawers & Bins | <ul style="list-style-type: none"> • Soap and water | Use a soft cloth to clean drawer runners and tracks. |
| Glass Shelves | <ul style="list-style-type: none"> • Soap and water • Glass cleaner • Mild liquid sprays | Allow glass to warm to room temperature before immersing in warm water. |
| Exterior | <ul style="list-style-type: none"> • Soap and water • Non Abrasive Glass Cleaner | Do not use commercial household cleaners containing ammonia, bleach or alcohol. Use a soft cloth to clean. DO NOT use a dry cloth to clean smooth doors. |
| Exterior (Stainless Steel Models Only) | <ul style="list-style-type: none"> • Soap and water • Stainless Steel Cleaners | <p>Never use CHLORIDE or cleaners with bleach to clean stainless steel. Clean stainless steel front and handles with non-abrasive soapy water and a dishcloth. Rinse with clean water and a soft cloth. Use a non-abrasive stainless steel cleaner. These cleaners can be purchased at most home improvement or major department stores. Always follow manufacturer's instructions. Do not use household cleaners containing ammonia or bleach.</p> <p>NOTE: Always clean, wipe and dry with the grain to prevent scratching. Wash the rest of the cabinet with warm water and mild liquid detergent. Rinse well, and wipe dry with a clean soft cloth.</p> |
| Replacing LED Bulbs | <ul style="list-style-type: none"> • Unplug refrigerator • Wear gloves • Remove the Refrigerator light cover • Replace old LED light board • Replace light cover • Plug in the refrigerator | CAUTION: Wear gloves when replacing LED bulbs to avoid getting cut. Use only a 5-watt or less AC LED light bulb. |

14 TROUBLESHOOTING

Let us help you troubleshoot your concern! This section will help you with common issues. If you need us, visit our website, chat with an agent, or call us. We may be able to help you avoid a service visit. If you do need service, we can get that started for you!

When humidity is lower, the moisture should disappear. • See PROBLEM column OPENING/CLOSING OF DOORS/DRAWERS. |
| Side panels are warm | <ul style="list-style-type: none"> • It's normal. The condenser is under the cabinet steel. | <ul style="list-style-type: none"> • Wear gloves to touch side panels if needed. |

16 LIMITED WARRANTY

Your appliance is covered by a one year limited warranty. For one year from your date of delivery, Electrolux will pay all costs for repairing or replacing any parts of this appliance that prove to be defective in materials or workmanship when such appliance is installed, used and maintained in accordance with the provided instructions.

Exclusions

This warranty does not cover the following:

1. Products with original serial numbers that have been removed, altered or cannot be readily determined.
2. Product that has been transferred from its original owner to another party or removed outside the USA or Canada.
3. Rust on the interior or exterior of the unit.
4. Products purchased "as-is" are not covered by this warranty.
5. Food loss due to any refrigerator or freezer failures.
6. Products used in a commercial setting.
7. Service calls which do not involve malfunction or defects in materials or workmanship, or for appliances not in ordinary household use or used other than in accordance with the provided instructions.
8. Service calls to correct the installation of your appliance or to instruct you how to use your appliance.
9. Expenses for making the appliance accessible for servicing, such as removal of trim, cupboards, shelves, etc., which are not a part of the appliance when it is shipped from the factory.
10. Service calls to repair or replace appliance light bulbs, air filters, water filters, other consumables, or knobs, handles, or other cosmetic parts.
11. Surcharges including, but not limited to, any after hour, weekend, or holiday service calls, tolls, ferry trip charges, or mileage expense for service calls to remote areas, including the state of Alaska.
12. Damages to the finish of appliance or home incurred during installation, including but not limited to floors, cabinets, walls, etc.
13. Damages caused by: services performed by unauthorized service companies; use of parts other than genuine Electrolux parts or parts obtained from persons other than authorized service companies; or external causes such as abuse, misuse, inadequate power supply, accidents, fires, or acts of God.

DISCLAIMER OF IMPLIED WARRANTIES; LIMITATION OF REMEDIES

CUSTOMER'S SOLE AND EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY SHALL BE PRODUCT REPAIR OR REPLACEMENT AS PROVIDED HEREIN. CLAIMS BASED ON IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO ONE YEAR OR THE SHORTEST PERIOD ALLOWED BY LAW, BUT NOT LESS THAN ONE YEAR. ELECTROLUX SHALL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES SUCH AS PROPERTY DAMAGE AND INCIDENTAL EXPENSES RESULTING FROM ANY BREACH OF THIS WRITTEN LIMITED WARRANTY OR ANY IMPLIED WARRANTY. SOME STATES AND PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR LIMITATIONS ON THE DURATION OF IMPLIED WARRANTIES, SO THESE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. THIS WRITTEN WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS THAT VARY FROM STATE TO STATE.

If You Need Service

Keep your receipt, delivery slip, or some other appropriate payment record to establish the warranty period should service be required. If service is performed, it is in your best interest to obtain and keep all receipts. Service under this warranty must be obtained by contacting Electrolux at the addresses or phone numbers below.

This warranty only applies in the USA and Canada. In the USA, your appliance is warranted by Electrolux Major Appliances North America, a division of Electrolux Home Products, Inc. In Canada, your appliance is warranted by Electrolux Canada Corp. Electrolux authorizes no person to change or add to any obligations under this warranty. Obligations for service and parts under this warranty must be performed by Electrolux or an authorized service company. Product features or specifications as described or illustrated are subject to change without notice.
