

Ontario Pillowtop SLS502

ComfortKnit™ Quilt Foam

- A soft, breathable quilting foam engineered to enhance surface comfort. ComfortKnit™ Quilt Foam gently cushions the body, adds plushness to the mattress top, and promotes a smooth, cozy feel the moment you lie down.

Safe Slumber® Fire Retardant Fibers

- Meets or exceeds 15 international standards including 16CFR part 1633. A non-toxic, healthy and safe sleep environment free of harmful chemicals.

Gel Cooling Foam

- For those who tend to sleep hot, gel cooling foam mattresses can provide the cool-to-the-touch comfort you need.

ComfortSoft™ Foam

- Plush comfort-layer foam used in mattresses to enhance surface softness and pressure relief. It gently cushions the body, helping to reduce pressure points at the shoulders, hips, and joints while promoting a more relaxed, comfortable sleep feel.

ComfortFirm™ Foam

- A durable, supportive foam designed to deliver firmer, more stable comfort. ComfortFirm™ Foam helps maintain proper body alignment while reducing pressure points, creating a balanced feel that's supportive without sacrificing comfort.

Dura Spring 360° Edge Support

- High-Quality Coil System providing support and durability by conforming to the body's shape while providing consistent comfort with a design for long term support.

Support Foam

- Motion Absorption Support for the coil system reduces sleep disturbing motion transfer.

Mattress Height 12"

10 Year Full Warranty

Proudly Handmade in the USA Since 1883
