WARNINGS - Loft Bunk Bed

- **STRANGULATION HAZARD** - Never attach or hang items to any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, hooks, belts and jump ropes.
- Follow the information on the warnings appearing on the upper bunk end structure and on the carton. Do not remove warning label from bed.
- The mattress platform is designed to support a mattress without the need for a posture board or box spring.
- Always use the recommended size mattress or mattress support, or both, to help prevent the likelihood of entrapment or falls.
- **USE ONLY A COIL SPRING MATTRESS ON THE UPPER BUNK. FAILURE TO DO SO CAN RESULT IN INJURY.**
- Use only mattresses which are **74"-75"** long and **37-1/2"-38-1/2"** wide on upper bed. Ensure thickness of mattress does not exceed **6"(152mm)**. Surface of mattress must be at least **5"(127mm)** below the upper edge of guardrails.
- Do not allow children under **6** years of age to use the upper bunk.
- Always use guardrails on both long sides of the upper bunk. If the bunk bed will be placed next to the wall, the guardrail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and wall (applicable for bunk beds with full length guardrails on one side)
- Periodically check and ensure that the guardrail, ladder and other components are in their proper position, free from damage, and that all connectors are tight.
- Do not allow horseplay on or under the bed and prohibit jumping on the bed.
- Do not use substitute parts. Contact the manufacturer or dealer for replacement parts.
- Use of a night light may provide added safety precaution for a child using the upper bunk.
- The use of water or sleep flotation mattresses is prohibited.
- Always use the ladder for entering and leaving the upper bunk.
- Prohibit more than one person on upper bunk.
- Keep these instructions for future reference.

Caution : Please read instructions thoroughly before unpacking assembly parts. Sharp, exposed staple tips can cause injury, therefore, for your protection, please remove any exposed staples used in packing.

1. We recommend that you should assemble this product with the assistance of another person; this will make assembly easier, and will help to eliminate damage to the product or injury to persons during assembly.
2. Be sure to check all packing materials carefully for small parts that may have come loose inside the carton during shipment.
3. Please do not over tighten screws or bolts.
4. Please put all parts on a non-abrasive floor before assembly, and follow the assembly steps to assemble your newly purchased product correctly and efficiently.
