COFFEE TABLE | CM4183BK-C

DETAILS:

Who's up for some futuristic decor? Paired with other modern pieces, this table set will push your room a few decades forward in the timeline. Much of this is due to the high gloss finish; each table top sheens with a reflective glow. The geometric base holds up the main table top featuring a black tempered glass insert in its center. If making a statement is what you want, you cannot go wrong with a set like this.
