

DENON®

AH-C160W

WIRELESS SPORT HEADPHONES

## WIRELESS FREEDOM

Sport headphones can inspire you to greater efforts in your daily run or workout, or simply make the commute more tolerable – and with the combination of a design built for comfort, durability and superb sound, plus the convenience of wire-free Bluetooth connection to your phone or personal music player, the AH-C160W is designed to give you the freedom to move with the music.

The sleek design of the AH-C160W uses unique Earhook technology, developed with a leading hearing aid specialist, to keep the earpieces in place – even during heavy workouts or when running. Three ring sizes give the best fit for the ears, ensuring pure music playback and excluding noise.

### FEATURES

- High-quality 11.5 mm drivers with digital signal processing
- Bluetooth Class 1 connectivity for tangle-free use and reliable connection
- Clear Voice Capture noise reduction for phone calls, plus voice prompts
- Earhook technology and a choice of eartips for comfort and a secure fit
- Tough construction for life on the move
- Sweat and moisture protection for long-term durability

### ACCESSORIES

- 1 pair of Comply Foam eartips
- 4 pairs of silicon eartips (XS, S, M, L)
- 3 pairs of rings
- USB charging cable
- Cable Slider
- Carrying case with carabiner

### BEST SOUND PERFORMANCE

The sound of the Denon AH-C160W has been designed and tuned using advanced digital signal processing – to help and inspire you to achieve your fitness goals faster.

### DURABLE

The AH-C160W is designed to survive: as well as its durable mechanical structure, even the electronics inside are coated with Nanoflcs technology, for IPX5/7 class sweat resistance.

### INTEGRATED CONTROL BUTTONS

Let you easily change volume, skip tracks, take calls. So you stay in control of all that performance without reaching for your device.

### CLEAR TALK

The AH-C160W uses Clear Voice Capture, a sophisticated noise reduction system to deliver the clearest voice quality for phone calls – even in the noisiest environments. Also Multilingual Voice Prompts keep you aware of headphone status – such as battery level – so you can concentrate on getting on with your workout!

### COMFORTABLE FIT

Along with four silicon ear tip sizes, the AH-C160W comes with Comply tips made from Memory foam to ensure ultimate comfort in the ear. They're treated with SweatGuard to keep them clean – however hard the exercise!
