Product Description: Comfortable and inviting, the August collection is ready to be the centerpiece of your living space. These plush pieces feature overstuffed back cushions that cradle you in comfort while bench seats are an ideal place to take a load off after a long day. Filled with a down blend, they will only become more comfortable over time. Narrow track arms neatly frame each piece in clean lines, and welt detailing on the arms and cushions provides a subtly tailored appearance. Each piece rests on tall, finished, tapered wood legs.
