Product Description: The Brixton Bookcase offers a stylish way to display and organize your books and décor. Featuring a distinctive two-tone finish with elm veneers in a soft pebble hue, complemented by ivory leathered doors, this bookcase is an elegant addition to any home office. It includes two adjustable shelves on top and concealed storage with doors at the bottom, offering both display and hidden storage options for your workspace or living area.

Collection Features: The Brixton Home Office Collection is a thoughtfully designed trio featuring elegant, curved waterfall silhouettes that give the collection a sleek and contemporary aesthetic. The two-tone finish pairs soft, elm veneers in a pebble hue with door and drawer fronts in a contrasting ivory with leathered texture.

Status: New

Finish: Two-tone finish pairs soft, elm veneers in a pebble hue with door fronts in a contrasting ivory with leathered texture.

Features: Two-tone finish features elm veneers in a pebble hue with door fronts in a contrasting ivory with leathered texture
Two adjustable shelves in the top
Two doors in bottom with one adjustable shelf behind doors
Rounded top corners

Material: Elm Veneers

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
