Old Growth Medium Planter

2200-0052

In Stock | New

Overall: 15.75"h x 12.5"dia.

Finish: Dark Brown

Materials: Fiber Cement

Item Weight: 25 lbs.

In the tradition of faux bois, the Old Growth Medium Planter is incredibly lifelike.

Crafted from fiber cement in a dappled finish, the stump-shaped brown planter looks aged like an antique would had it been ornamenting a garden for decades.

The way the gnarled roots culminate at the bottom is particularly convincing. This plant pot has a drain hole.
